GROUP 2300

Commissioner of Patents  
and Trademarks  
Washington, D.C. 20231

Dear Sir:

The enclosed Amendment is in response to the Office Action dated September 2, 1993 for the above identified patent application. This response is due December 2, 1993.

IN THE CLAIMS:

Amend claims 1, 2, 5, 6, 8, 11, 13, 14, 16-20, 23-25, 31, 34, 36-43, and 46, add new claims 47-66 as follows:

1. (amended) An information transmission system comprising:  
a set of one or more computer memory devices on which is stored an information database;

database editing means, coupled to said one or more computer memory devices, for generating a hierarchically arranged set of indices for referencing data in said information database, including distinct indices for referencing distinct portions thereof, and for embedding said indices in said information database;

scheduling means for scheduling transmission of selected portions of said information database, including assigning each
